

Status of the Combustion Devices Injector Technology Program at the NASA Msfc

Filesize: 3.95 MB

Reviews

Complete guideline for ebook lovers. Better then never, though i am quite late in start reading this one. Its been printed in an remarkably simple way in fact it is only right after i finished reading this book through which in fact transformed me, alter the way in my opinion.

STATUS OF THE COMBUSTION DEVICES INJECTOR TECHNOLOGY PROGRAM AT THE NASA MSFC

To download **Status of the Combustion Devices Injector Technology Program at the NASA Msfc** PDF, remember to access the link listed below and save the ebook or get access to other information which might be relevant to STATUS OF THE COMBUSTION DEVICES INJECTOR TECHNOLOGY PROGRAM AT THE NASA MSFC book.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. To support the NASA Space Exploration Mission, an in-house program called Combustion Devices Injector Technology (CDIT) is being conducted at the NASA Marshall Space Flight Center (MSFC) for the fiscal year 2005. CDIT is focused on developing combustor technology and analysis tools to improve reliability and durability of upper-stage and in-space liquid propellant rocket engines. The three areas of focus include injector chamber thermal compatibility, ignition, and combustion stability. In the compatibility and ignition areas, small-scale single- and multi-element hardware experiments will be conducted to demonstrate advanced technological concepts as well as to provide experimental data for validation of computational analysis tools. In addition, advanced analysis tools will be developed to eventually include 3-dimensional and multi-element effects and improve capability and validity to analyze heat transfer and ignition in large, multi-element injectors. This item ships from La Vergne, TN. Paperback.
