

Corruption In India: The DNA and The RNA

By Bibek Debroy & Laveesh Bhandari

Konark Publication, New Delhi, 2012. Soft cover. Book Condition: New. 195pp. India will need to win the battle against endemic corruption if it has to survive, prosper and achieve the status of a developed economy and an inclusive society. To design a comprehensive anti-corruption program we need to (i) appreciate the core elements that lead to corrupt behavior by public officials and (ii) understand the mechanics of corruption. These elements range from poor policy formulation, low use of technology, inappropriate assignment of discretion and lack of transparency and accountability. The authors argue that improvements in efficiency of governance and anti-corruption efforts will need to go hand in hand. The war can be won as it has been in other democracies only through political action driven by pressure from citizens to demand both greater efficiency and honesty from their government.

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.
